# Cleaner Clearer Softer It's Easier too!

# Fresh Mineral Water Easy™

## Cleaner

The enemy is bacteria

FROG® destroys bacteria 2 ways with minerals and low levels of chlorine for an ultra clean pool or hot tub

## Clearer

Helps maintain pH balance and uses up to 50%\* less chlorine for better water clarity

## Softer

Minerals condition the water for softness so it's easier on you and on your pool and hot tub with no faded swimsuits or smelly odors

## Easier

You never touch chemicals with pre-filled containers that last longer for less work and are recyclable when empty

Set Mineral Cycler to ON

Set Chlorine Cycler per pool size and use

**POOL FROG® MINERAL RESERVOIR**  
Maintains clearer, cleaner and softer water with much less chlorine  
Lasts 6 months

**POOL FROG® CHLORINE PAC**  
Provides a low-level chlorine support that lasts for weeks

**FROG BAM®**  
Enhances mineral water with a 90-day algae protection guarantee

So why have water that claims to be clean, clear or soft when you can have cleaner, clearer and softer water with FROG. The "er" makes all the difference.

\* Compared to the minimum EPA recommended chlorine level of 1.0 ppm for a stabilized swimming pool.
